

Fun Tiles

Games	Ludo, Checkers, Nine Men's Morris, Backgammon, Shark - Throwgame, Jump-Fun (4 tiles of 1 x 1 m), see www.err-team.de/eng/spieleplatten.html for photos.
Dimensions	1010 x 1010 mm
Thickness	42 mm
Surface	Smooth surface manufactured out of fine rubber granules with inlays of coloured EPDM rubber
Underside	Water drainage channels
Weight	38 kg
Material	Polyurethan bound rubber granules
Basic Colour	Black
Playing stones	One set of stones is included with each game. The sets are sold separately as well
Safety	Fun tiles are great to be attached on the outer side of safety tile areas. They are not safety tiles themselves and should therefore not be used as such.

Places of use: Playgrounds, parks, recreational areas, indoor play parks

Benefits: Different to plain red or green safety tile areas, weather resistant, elastic, easy to install

Installation: Gluing to the ground with app. 400 gr. of PU-glue 1174 on bound subground (e.g. cement) or side-to-side on crushed gravel with PU SH100. The tiles can also be laid loose in indoor areas.

Appropriate for: Children of 6 years and more. Small playing stones could be swallowed if used by children of lesser age.

Tolerances and note about material: Tolerances in thickness: +/- 3 mm, Tolerances in measurement: +/- 2%. Rubber-Fun-Tiles expand and shrink with changes in temperature and humidity.
