

Prisma Pole

| | |
|-------------------------|---|
| Height | 72 cm |
| Bottom Diameter | 35 cm |
| Weight | 32 kg |
| Material | polyurethane bound rubber granules |
| Standard Colours | redbrown, green (black, coloured granules), black |
| Special Colours | see colour list |

Places of use: Driveways, Parking areas, Playgrounds, public places,
Benefits: extra safety on driveways and parking areas - no hard edges, no splints or sharp edges, extremely weather resistant

Installation: gluing to bound subgrounds, optional with anchor element to be fixed into fresh cement. Screws can easily be attached to the poles (to carry chains)

Tolerances and note about material: Tolerances in thickness: +/- 3 mm, Tolerances in measurement: +/- 2%. Rubber-Safety-Elements expand and shrink with changes in temperature and humidity.
